Title AS Tallinna Vesi signed a contract for the partial reconstruction of the mechanical treatment

Tallinna Vesi signed a contract today for the partial reconstruction of the mechanical treatment process stage at the wastewater treatment plant in Paljassaare. The contract was awarded to RVT Ehitus OÜ and Osaühing Mapri Ehitus who submitted a joint tender. The total cost of the project will be EUR7.6 million, which was the result of a competitive tender.

The reconstruction mainly focuses at increasing the reliability of the mechanical treatment stage within the wastewater treatment process. The works will include the construction of the new grit separation tanks and the associated facilities, and also upgrading the existing technological equipment. The planned timeline for completion of the project is Q4 2022.
